GOOD TO KNOW

- A truck carries up to 10 yards. A bigger pour goes out on more than one truck. Each truck is priced on its own load and carries its own zone fee.
- A fuel surcharge of $15 per hour covers the truck's whole trip: the drive out, your pour and the drive back.
- Your pour time includes 8 minutes per yard. Standby beyond that is $3 per minute.
- You are invoiced for what is actually placed.
- Sales tax is extra and set by the tax area of the delivery address.
- Card payments carry a processing fee.
- Pours over 100 yards are quoted by a salesperson.
